History: This message has been replied to.

David:

Under our licensing timeframe regulations, we must make a decision for a temporary permit application within 180 days, which does not include time waiting for applicant responses. Per my phone message, when you get a chance I would like to chat with you to compare EPA's and ADEQ's ETA's for permitting decision.

Thanks,

Jerry

Hi Jerry,

Just a quick question. Are you guys compelled to act within a specified timeframe in issuing the temporary APP for Curis/Florence Copper? Do you have any flexibility with timing of either permit issuance or going through public notice?

Thanks,

David
